Implant training course for Nurses 9th November Places still available

Our one day implant course is ideal for nurses requiring implant training and who wish to gain confidence in assisting and supporting dentists in implant procedures.

Whether new to implant nursing, or already experienced, this course helps nurses achieve a greater understanding of their role during implant placement and increases both their confidence and competence.

A hands-on course covering the required theoretical procedures and protocols with the added opportunity to assist chairside in live implant placement.

Find out more about our upcoming course on 9th November.
